2.3 Why is this work needed?

To gain compliance assurance a wide range of tools and techniques need to be deployed beyond purely traditional regulatory enforcement tools. Knowledge of the successful implementation of many of these tools is often limited within the regulatory community. The ability to showcase these tools and approaches is needed to help make regulatory bodies more effective and efficient and to ultimately give high levels of environmental protection.

2.4 Desired outcome of the work

To bring together practitioners with a variety of roles to ensure the latest developments can be shared to enable regulatory agencies to be more effective.

2.5 Does this project link to any previous or current IMPEL projects?

IMPEL contribution to ECA initiative. Mini-conference on regulatory strategy

3. Structure of the proposed activity
